

~~SECRET~~

DIARY NOTES

DD/S

24 June 1958

1. I met with the Director and Bob Macy at which time Macy explained that the Vice President had informed [REDACTED] that he thought the United States Government ought to be doing more in the educational field and that we ought to be getting more credit for it. The Vice President's Latin American experiences were fresh on his mind. However, he is thinking about this on a world-wide basis. The Vice President indicated that for some time he had thought it was extremely important to bring foreign students to the United States. He now believes that it is more important for us to send American students to foreign countries where universities, etc. He also feels that there are many places in foreign countries where universities and other educational institutions are controlled by an element not friendly to the United States and that the United States might fit in. He plans to discuss this with the [REDACTED] Director asked me to request the DD/P to prepare a summary for him as to what we are now doing in the field. Accordingly, I notified [REDACTED] S, Desmond [REDACTED] of the Director's meeting with Macy and specifically requested [REDACTED] to prepare the information which the Director had requested.

2. After talking with Jim Garrison and [REDACTED] on several occasions about the possibility of [REDACTED] going to the Office of Logistics, I have agreed that he should go and that he will be released as SPA-DD/S on 21 July 1958.

3. I approved of [REDACTED] taking leave from 25 July to 15 August 1958.

4. [REDACTED] telephoned to ask if it was correct that Division Chiefs have no right to [REDACTED] at the allowances our Chiefs of Station under their jurisdiction are. Apparently [REDACTED] was having some trouble with one of the Station Chiefs in the WE Division. I told [REDACTED] that his information was certainly not correct and that it was entirely at his discretion as to why he imparted this information.

5. Frank Wisner telephoned to say that a friend of his, Herbert Bryant, of Alexandria, had two light airplanes which were available for charter service. Frank said that we did not owe Bryant anything but that he would appreciate it if I gave him a call. (This I have done. However, I told Mr. Bryant that we had no need for this kind of charter service at the moment but that if we had any such requirements in the future, I would keep him in mind.)

6. [REDACTED] called to my attention the fact that we charged personnel living in quarters at [REDACTED] \$6.00 per month for telephone service whereas no such charge is

25X1A6a made at [REDACTED] (I asked [REDACTED] to look into this, and we have now decided that we should
25X1A6a not charge personnel at [REDACTED] for telephone service except where that service costs us
money over and above what we would normally spend to maintain the telephones on a stand-
by basis.
